

Supplemental material 2:

Presession family OPM-MEG eligibility form

The *Infant OPM-MEG eligibility* form was emailed to parents alongside the invitation to participate in the study to avoid unnecessary travel for ineligible families. The form was implemented via MS Forms. Screenshots of the form are shown below to illustrate its visual presentation and layout, followed by the full text for reference and accessibility.

OPM-MEG eligibility form

In this study, we are looking at how very young babies learn to process emotions and what happens in the brain whilst hearing different emotional voices.

To do so, we are using a cutting-edge brain imaging technology, called OPM-MEG, that allows us to measure how the baby brain responds to stimuli in a safe, non-invasive and baby-friendly manner. *Please refer to your invitation email to find out more about the study and the OPM-MEG methodology.*

OPM-MEG requires participants to fit certain eligibility criteria, and we'd like to check for these in advance. This way, if we determine that we may not be able to conduct the study, we will be able to avoid troubling you to come all the way to the BabyLab.

When you submit this form, it will not automatically collect your details like name and email address unless you provide it yourself.

* Required

1. Please confirm the ID number provided in your invitation email.

Enter your answer

2. Does any of the following apply to caregiver who will accompany the child?

Please rest assured that there are no risks to safety: OPM-MEG requires participants to fit certain eligibility criteria, and we'd like to check for these in advance to avoid troubling you to come all the way to the BabyLab if we may not be able to conduct the study.

Tick all that apply. ☐

☐ Suffers from claustrophobia

☐ Has any metal implants in the body (e.g., orthopaedic implants)

☐ Has any electrical devices implanted in the body or worn permanently (e.g., pacemakers, cochlear implants, hearing aids, neurostimulators..)

☐ Wears glasses

☐ Other (e.g., insuline pump, contraceptive coil) - feel free to specify in the box below

☐ None of the above

☐ Other

3. In this study we are looking at healthy and typically developing babies. Would you say your baby is generally healthy and meeting milestones? * 

- ☐ Yes
- ☐ No
- ☐ Prefer not to answer

4. Can you confirm if your child passed the newborn hearing screening test (AOAE)? (If you are not sure, you should be able to find a copy of the results in your Red Book). * 

- ☐ Yes
- ☐ No

5. Does your baby have any metal or electrical devices implanted in their body?

Please rest assured that there are no risks to safety: OPM-MEG requires participants to fit certain eligibility criteria, and we'd like to check for these in advance to avoid troubling you to come all the way to the BabyLab if we may not be able to conduct the study.

- ☐ Yes
- ☐ No
- ☐ Prefer not to answer

6. How easy do you find the below situations with your baby? *Please note that there's no right or wrong answer here - the reason we're asking is to make the experience as easy as we can for each baby and caregiver!* 

	Very easy	Easy	Neither easy or challenging	Challenging	Very challenging
Falling asleep lying in a cot (even with support)	☐	☐	☐	☐	☐
Being transferred from arms to cot when asleep	☐	☐	☐	☐	☐

7. What languages does your child hear at home?
